DJSammm Bio

Nov 18, 2026 · @Sam Stratigeas

Short bio (about 50 words)

DJSammm is a Toronto house DJ and VJ with more than a decade behind the decks on Church Street. Resident at Flash on Church, FML and the El Mocambo, he builds smooth, surprising house journeys across deep, tech and bass house, techno and progressive, streamed live on Twitch several times a week.

Standard bio (about 150 words)

DJSammm has spent more than ten years shaping dance floors in the heart of Toronto's Church Street village. A resident at Flash on Church for over a decade, he has held residencies with the FML party since 2022 and at the El Mocambo since 2024, is a regular at the Black Eagle's Bear Bash, and has taken the stage during Toronto Pride.

His sound is house music first, and can be deep, funky, jackin, tech/bass, techno or progressive, mixed as one smooth journey. He likes to drop familiar elements into unfamiliar settings, so the room hears something it knows in a way it didn't expect.

He is also a video DJ, mixing visuals alongside the music, and streams live on Twitch several times a week to nearly 1,500 followers. Next up: his debut at Wiggle Room, his first night beyond Church Street.

Full bio

For more than ten years, DJSammm has been part of the soundtrack of Toronto's Church Street village. He has been a resident at Flash on Church for over a decade, has also held a residency at Boutique Bar, became resident DJ for the FML party (at Flash) in 2022, and has been a resident at the El Mocambo since 2024. He plays regularly at Bear Bash at the Black Eagle, and he has played stages during Toronto Pride festivals.

His home is house music in its many shapes: deep house, tech house, bass house, techno and progressive house. If it's house, it has a home with DJSammm. His approach is the journey. Tracks are chosen from years of eclectic listening and performing, and blended so

that familiar elements turn up in unfamiliar settings, keeping the room both comfortable and surprised. In the club he reads the floor and the venue, leaning into dance pop, house, tech house, bass house or techno as the night calls for it.

DJSammm is also a video DJ and VJ, mixing visuals alongside the music for venues that want a show on the screens as well as the speakers.

Off the club circuit he streams live on Twitch several times a week, where his audience has been growing fast. He's closing in on 1,500 followers, with 10 to 100 viewers tuning in to each stream.

He's also taking his sound beyond Church Street, with his debut at Wiggle Room in Toronto.
